

Conference Program

The 2nd International Conference on Anaerobic Digestion Technology

Sustainable Alternative Bioenergy for a Stable Life

4-7 June 2018, The Empress Convention Centre, Chiang Mai, Thailand

| Day 1 Monday 4 th June 2018 | | | |
|--|---|---|---|
| 08:00-09:00 | Registration | | |
| 09:00-09:30 | Opening Ceremony | | |
| 09:30-10:20 | <p><i>keynote speaker I: Plenary room</i></p> <p>Anaerobic digestion after the Paris climate agreements</p> <p>Prof. Willy Verstraete CMET, Ghent University, Belgium</p> | | |
| 10:20-10:35 | Coffee break | | |
| 10:35-11:20 | <p><i>keynote speaker II: Plenary room</i></p> <p>Integrating microalgae production with anaerobic digestion: a biorefinery approach</p> <p>Dr. Jean-Philippe Steyer LBE, INRA, France</p> | | |
| 11:20-12:00 | <p><i>Invited Speech I: Plenary room</i></p> <p>Anaerobic digestion (AD) Technology as an Integrated part of municipal solid waste and resource management in emerging economies</p> <p>Mr. Werner Kossmann GIZ, Thailand</p> | | |
| 12:00-13:00 | Lunch | | |
| 13:00-14:20 | Poster session | | |
| 14.20-16.00 | Session Room (Chiang Mai 1) <i>Microbial ecology in AD</i> | Session Room (Chiang Mai 2) <i>Bioprocess, control & modeling in AD</i> | Plenary Room (Chiang Mai 3-5) <i>BioEnergy production & utilization</i> |
| 14:20-14:40 | Effect of trace element limitations on microbial community dynamics and methanogenic pathways in anaerobic digesters/ S. Kleinsteuber , B. Wintsche, N. Jehmlich and D. Popp | Comparison of different strategies for stabilizing food waste anaerobic digestion/G. Capson-Tojo, D. Ruiz, M. Rouez, M. Crest, J.-P. Steyer, N. Bernet, J.-P. Delgenès, R. Escudie | Surface velocity controls the H ₂ consumed in dark fermentation using winery wastewater/ B. A. Albarrán Contreras, J. Carrillo-Reyes, G. Buitrón |
| 14.20-14.40 | High rate domestic wastewater treatment at 15°C using uasb and anmbr reactor inoculated with cold-adapted sediments/ soils - shaping robust methanogenic communities/ E. Petropoulos , Y. Yu, A. Yakubu, T. P. Curtis and J. Dolfing | Application of soft-sensor for pH monitoring in high-pressure reactors used for mixed culture fermentation/ P. S. Ceron-Chafla , R. E. F. Lindeboom, K. Rabaey and J. B van Lier | The effect of organic loading rate on the fouling performance of ceramic membrane in anaerobic membrane bioreactor for leachate treatment/ W. Khongnakorn , J. Deebao and M. Héran |
| 15:00-15:20 | Coffee break | | |
| 15:20-15:40 | Impact of anaerobic co-digestion on microbial community and associated degradation pathways/ L. Cardona , C. Madigou, C. Bureau, L. Rouillac, L. Mazeas and O. Chapleur | ADM1 based mathematical model for effect of trace elements precipitation/dissolution on anaerobic digestion processes/ B. C. Maharaj , M. R. Mattei, L. Frunzo, E. D. van Hullebusch and G. Esposito | Increasing organic matter solubility and methane yield of decanter cake using autoclave pre-treatment on anaerobic digestion/ T. Kaosol and W. Rungarananotai |
| 15:40-16:00 | Microbial community analysis of a hydrogen fermentation process from food waste/ I. Moreno-Andrade, I. Mar-Alvarez , R. J. Alcántara-Hernández and I. L. I. Falcón | High crystallinity of zerovalent iron nanoparticle enhance anaerobic digestion of wastewater/ R. Stefan , J. Jakmunee and P. Singjai | High temperature and ultrasonic pretreatment of microalgal consortium for enhanced biogas production/ T. Mounghoon , C. Pumas, C. Chaichana, W. Pathom-aree and J. Pekkoh |
| 16:00-16:20 | Application of enrichment cultures to enhance anaerobic digestion of lignocellulosic substrates: potentials and limitations- M. Nikolausz , E. G. Ozbayram, A. F. Leite, K. Batista and S. Kleinsteuber | Solid Manure treatment in dry anaerobic batch digester: process performance and startup optimization/ M. Torrijos , S. Riggio, R. Debord, G. Esposito, E.D. van Hullebusch, R. Escudie | Effect of enzymatic hydrolysis pretreatment on batch anaerobic digestion of wastewater generated in desiccated coconut processing plants/ B.K.T. Samarasiri and P.G. Rathnasiri |
| 17:30-18.30 | Appetizer and entertainment : Games , Ngarn Wat Fair (at The Imperial Ballroom*) | | |
| 18:30-20:30 | ADTech-SAB2018 - Welcome Dinner (at The Imperial Ballroom) | | |

Remark *The Imperial Ballroom is on the 2nd floor of The Empress Hotel

Day 2 : Tuesday 5th June 2018

| | | | |
|-------------|---|--|---|
| 09:30-10:20 | <p align="center"><i>Keynote speaker III : Plenary Room</i></p> <p align="center">Source separation, the future of resource recovery from sewage</p> <p align="center">Prof. Grietje Zeeman</p> <p align="center">Wageningen University, The Netherlands</p> | | |
| 10:20-10:35 | <p align="center"><i>Coffee break</i></p> | | |
| 10:35-11:20 | <p align="center"><i>Keynote Speaker IV: Plenary Room</i></p> <p align="center">Apply char-based additives to anaerobic bioprocesses: the known and the unknown</p> <p align="center">Prof. PinJing HE</p> <p align="center">Tongji University, China</p> | | |
| 11:20-12:00 | <p align="center"><i>Invited Speech II: Plenary Room</i></p> <p align="center">Green movements towards a new paradigm for sustainable and conscious living</p> <p align="center">Ms.Nisara Wangratanasopon</p> <p align="center">Chiang Mai University, Thailand</p> | | |
| 12:00-13:00 | <p align="center"><i>Lunch</i></p> | | |
| 13:00-13:40 | <p align="center"><i>Poster session</i></p> | | |
| 13.40-16.00 | <p>Session Room [Chiangmai 1]</p> <p><i>Microbial ecology & BioEnergy</i></p> | <p>Session Room [Chiangmai 2]</p> <p><i>Bioprocess, control modeling in AD</i></p> | <p>Plenary Room [Chiangmai 3-5]</p> <p><i>BioEnergy production & utilization</i></p> |
| 13:40-14:00 | Native microbial consortia analysis during the semi-continuous hydrogen production from diverse lignocellulosic biomasses/ O. Ayala , I. Valdez-Vazquez and A. Sanchez | Precise pretreatment or selective pretreatment of biowaste: concept and practice/ F. Lü , L.M. Shao and P.J. He | Phenol-activated persulphate [S ₂ O ₈ ²⁻] as efficient terminal electron acceptor to improve bioenergy recovery from microbial fuel cell/ Md. T. Noori, G. D. Bhowmick, O.M. Ghangrekar, P. Dhamu, S. Fadanavis, M. M. Ghangrekar and C.K. Mukherjee |
| 14:00-14:20 | Integration of straw mushroom [<i>Volvariella volvacea</i>] cultivation and solid state anaerobic digestion for utilization of empty fruit bunches/ S. O-Thong , P. Kongjan and P. Prasertsan | Effects of agitation speed and gas recirculation on hydrogen supersaturation and dark fermentation by <i>thermotoga neapolitana</i> / G. Dreschke , S. Papirio, G. d'Ippolito, A. Panico, P. Lens, A. Fontana and G. Esposito | Pretreatment of water hyacinth for biohydrogen production via anaerobic digestion./ C. Jarusiripot , D. Sunthong, and P. Chairat-uthai |
| 14:20-14:40 | Methane productions of five different microalgae species/ N. A. Perendeci, V. Vilmaz , B. Ertit Taştan, M. Fardinpoor and M. Şahan | Performance of a bench-scale sulfur oxidizing bacterial biofilter on treating real biogas/ K. Rujsangvittaya and S. Phoolphundh | Batch and continuous fermentation of palm oil mill effluent for production of hydrogen under thermophilic condition using <i>thermoanaerobacterium sp. psu-2</i> / P. Prasertsan , S. O-Thong and J. Seengenyong |
| 14:40-15:00 | Hydrogen production in microbial electrolysis cell using an acidogenic effluent from food waste fermentation/ R. Cardeña, I. Moreno-Andrade and G. Buitrón | Efficiency of alkaline pretreatment of sorghum and miscanthus before batch dry codigestion with cattle manure / H. L. Thomas, R. Escudé, J.P. Delgenès and H. Carrere | High level of cellulolytic activity and butanol production from lignocellulosic biomass by <i>geobacillus sp. Pk12</i> / A. Singkhala , N. K. Birkeland, C. Niyasom and S. O-Thong |
| 15:00-15:20 | <p align="center"><i>Coffee break</i></p> | | |
| 15:20-15:40 | Improving the methane production rate from paragrass through anaerobic digestion under thermophilic condition/ S. Nuchdang and C. Phalakornkule | Biochemical methane potential (BMP) from latex luteoid and concentrated latex wastewater (CLW) by integrated pyrolysis and anaerobic digestion/ L. Seaseng , R. Jariyaboon J. Tasara, P. Kongjan | Continuous bio-hythane production from two-stage anaerobic co-digestion of palm oil mill effluent (POME) and ceratophyllum demersum/ P. Kongjan , N. Usmanbaha, S. O-Thong and R. Jariyaboon |
| 15:40-16:00 | Chain elongation with lactate producing medium-chain carboxylates by a semi-continuously fed anaerobic reactor microbiome/ Bin Liu , Sabine Kleinstüber, Heike Sträuber | Performance and characteristics of anaerobic biofilm (ABF) reactors treating domestic grey-water/ Himanshu K Khuntia, Hoyssal Chanakya | Effect of intermittent mixing on biogas production during anaerobic fermentation of high-strength wastewater/ A. Kurniawan , M. Sibag and J. Cho |
| 16.00-16.20 | Coenzyme F420 activity of anaerobic mono- and co-digestion of food waste amended with trace elements/ Burhan Shamurad , Neil Gray and Paul Sallis | Utilization of nutrients in wastewater for algae production with simultaneous energy recovery by a novel stacked microbial desalination cell and microbial carbon capture cell system/ Neethu. B , M. M. Ghangrekar | Interpretation of biogas production from potential biomass feedstock and synthetic cellulose through analytical techniques/ D. Vadav , A. Rollinson, R. Blanchard, A. Wheatley and T. Radu |

| Day 3 : Wednesday 6 th June 2018 | | | |
|---|--|--|--|
| 9:30-10:20 | <i>Keynote speaker V: Plenary Room</i> Role of anaerobic digestion in developing next generation Prof. Damien Batstone University of Queensland, Australia | | |
| 10:20-10:35 | <i>Coffee break</i> | | |
| 10:35-11:20 | <i>Keynote Speaker VI: Plenary Room</i> Lignocellulose Deconstruction using a Mobile Enzyme Sequestration Platform [MESP] constructed from proteins of the anaerobic bacterium clostridium thermocellum and the hyperthermophilic archaeon sulfolobus shibatae with a light sprinkle of nanotechnology Dr. Ruben Michael Ceballos University of Arkansas [Fayetteville], USA | | |
| 11:20-12:00 | <i>Invited Speech III: Plenary Room</i> Biogas technology application to manage waste and wastewater of palm oil mill for energy and environmental conservation Mr. Weerapan Kiatpakdee Natural Power Co., Ltd., Thailand | | |
| 12:00-13:00 | <i>Lunch</i> | | |
| 13:00-14:40 | Session Room [Chiangmai 1] <i>BioEnergy production & utilization</i> | Session Room [Chiangmai 2] <i>Bioprocess, control modeling in AD</i> | Plenary Room [Chiangmai 3-5] <i>BioEnergy production & utilization</i> |
| 13:00-13:20 | Integrated bioprocess for biogas and biocrude production from sugarcane industry wastes/ P. Kaparaju , Z. Zhang, A. Latif, P. Paulose, L. Moghaddam, W. Doherty and I. O'Hara | Hydrothermal post-treatment of digestate to maximize the methane yield from the anaerobic digestion of microalgae/ Serge R. Guiot , Sasikarn Nuchdang , Jean-Claude Frigon, Caroline Roy and Chantaratporn Phalakornkule | Anaerobic co-digestion of food waste along with slaughter house fat/ Inshirah Ahmed Mohammed Al-Maskari , Joseph V Thanikal , Hatem Yazidi, Abubacker K M |
| 13:20-13:40 | Ethanol and biogas productions from cassava pulp by biorefinery approach/ N. Parnkheaw , K. Mukkata, S. Koonaphapdeelert and S. Nitayavardhana | Biochemical methane potential of distillery spent wash generated from ethanol fermentation at different inoculum to substrate ratio- A. Salaeh , R. Jariyaboon, J. Tasara, B. Krisornpornsan and P. Kongjan | Preparation of fuel ethanol by continuous simultaneous saccharification and fermentation- Zhang Quan and Guan Hao |
| 13:40-14:00 | Different catalyst combinations investigation for Field scale applicability in bioelectric toilet microbial fuel cell/ Indrasis Das , Dipak A. Jadhav, Md. T. Noori, Makarand M. Ghangrekar , A. Rajakumar | Utilization of nutrients in wastewater for algae production with simultaneous energy recovery by a novel stacked microbial desalination cell and microbial carbon capture cell system/ Neethu. B , M. M. Ghangrekar | Two-stage temperature phase anaerobic co-digestion of waste activated sludge and greasy sludge/ K. Sani , R. Jariyaboon and P. Kongjan |
| 14:00-14:20 | Biogas Production From Water Hyacinth/ S. Hasin , T. Sookkumnerd, G. Sirijeerachai and A. Wongkoblapp | Enhancing of sugarcane bagasse hydrolysis by using pyrolysis pretreatment/ S. Sa-oh , R. Jariyaboon, P. kongjan, J. Tasara and B. Krisornpornson | Hydrogen production from organic solid waste in a sequencing batch reactor: Effect of hydraulic and solids retention time/ S. Santiago and I. Moreno-Andrade |
| 14:20-14:40 | Banana wastes to methane energy: effect of alkali and steam pretreatment/ Supachai Hirunsupachote and Jirasak Tharajak | | Anaerobic tri-digestion of sewage sludge, palm oil mill effluent [POME], and food waste for enhanced biogas production from organic waste in Malaysia / Mohamed Abdulrahman Alsamet , Masafumi Goto and Saqr Abdulraakeb Al-Muraisy |
| 14:40-15:00 | <i>Coffee break</i> | | |
| 15:00-15:30 | <i>Closing ceremony</i> | | |

| Day 4 : Thursday 7 th June 2018 (Optional) | |
|---|-----------------------------|
| 7.30-17.00 | Excursion (Optional) |
